Recommendations

Minimum Recommended Size: 1 in. / 25mm."

Underlay: Underlay is not recommended for the fill portion as it will not work properly with the light density stitching.

Pull Compensation: Absolute of 1-2 pts (.1-.2mm)

Special Considerations:

Minimum specifications are recommendations only. Smaller or larger results can be achieved by adjusting properties. Pull compensation and density can be modified from the properties. To make further adjustments, convert text to segments. Make any adjustments to settings as necessary according to type of material.
